Test Case Scenario

Customer Relationship Management (CRM)

Scenario 1

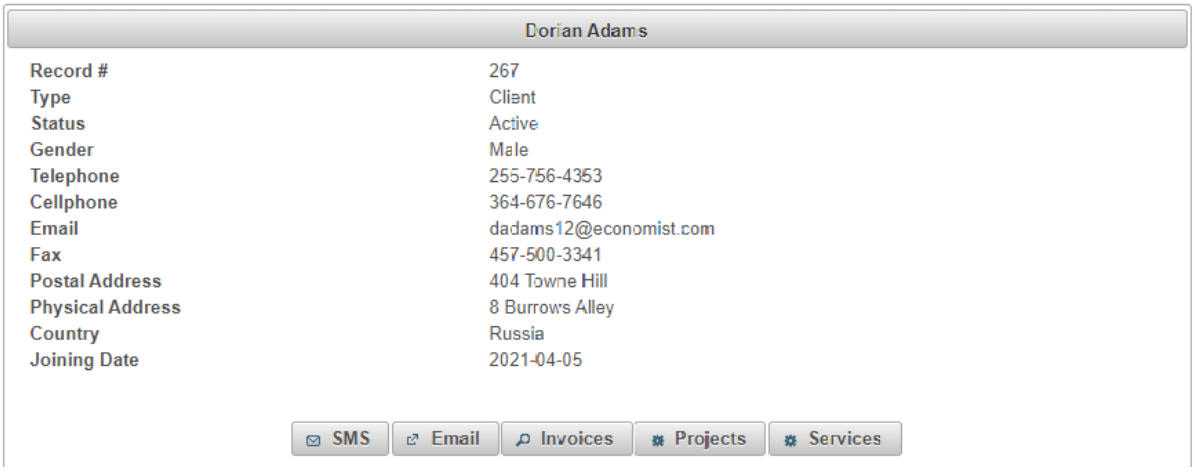

"Escalating the relationship"

Dorian Adams is a high profile client who regularly rents movies and purchases goods from the online store named "Future". Dorian is so impressed with the service he receives from the store that he has requested the organisation to assist him setup a Broadcasting company which will exclusively source goods from Future. Effectively, the company needs to initiate a project which will efficiently manage the new project.

Project Analysis

Before the project can begin; the Project Management Specialist, Olivia Hamid needs to review all of Dorians activity on the system in order for her and team to best plan and carry out the project.

The first step in this analysis is to review Dorians records in the Customer Relationship Management (CRM) module as below.

Loyal clients will usually be enrolled to one or more of the services you provide. Future allows for once off rentals for those rentals which occur once in a while, but for regular rentals a client can enrol onto the Movie Rental service and access benefits such as new movie notices, newsletter, special offers etc.

Upon clicking Services, Olivia immediately observes that Dorian is enrolled to the Movie Rental service as below.

Stakeholder Service Enrollment Listing

ID	267	**Type**	Client	**Status**	Active	**Vat Number**	183-24-5811
Name	Dorian	**Surname**	Adams	**Gender**	Male	**Telephone**	255-756-4353
Cellphone	364-676-7646	**Email**	dadams12@economist.com	**Fax**	457-500-3341	**Postal Address**	404 Towne Hill
Physical Address	8 Burrows Alley	**Country**	Russia	**Joining Date**	2021-04-05		

Enrol To Service | Discontinue Service | Create Invoice | Back To Stakeholders

Id	Description	Cost	Interest Rate	Recurring Maturity Date	Enrollment Date
1	Movie Rental	50.0	0.0	2022-01-23	2020-01-21

According to the enrolment, Dorian was enrolled in January 2020 and the enrolment expires 23 January 2022.

This is a great start to Olivia's inspection of Dorian's history with the organisation. Olivia then proceeds to review if Dorian has any outstanding invoices in the system by clicking Invoices

Invoice Listing

Back To Dashboard

Stakeholders

Recnum	Date	Name	Surname	Total	Outstanding
21	2020-12-23	Dorian	Adams	1756.0	1756.0

The above listing is returned, displaying that Dorian only has last month's invoice outstanding as the current date is 5 January 2021.

Olivia also decides to pull up all invoice records for Dorian since he enrolled on the Movie Rental service. This is performed from the Accounts Receivable module and it's results are displayed below.

Total **0.0**

From reviewing the Invoices generated, Olivia can establish the types of movies Dorian likes to watch and deduce other useful information which can assist her in customising a service package for Dorian if she had to. However, she is currently reviewing the invoices in order to establish if Dorian is a worthy client for which Future movie rental can engage into a business partnership as Dorian has requested.

In the next scenario Olivia will be selecting the team to work on the project and setting up the project itself.
