

MACHUZU

NEXT GENERATION – VERSION 1

GUARANTEED ACCESS TO DATA DURING PEAK, MISSION CRITICAL, AND OFFLINE LOCAL NETWORK OR INTERNET TIMES

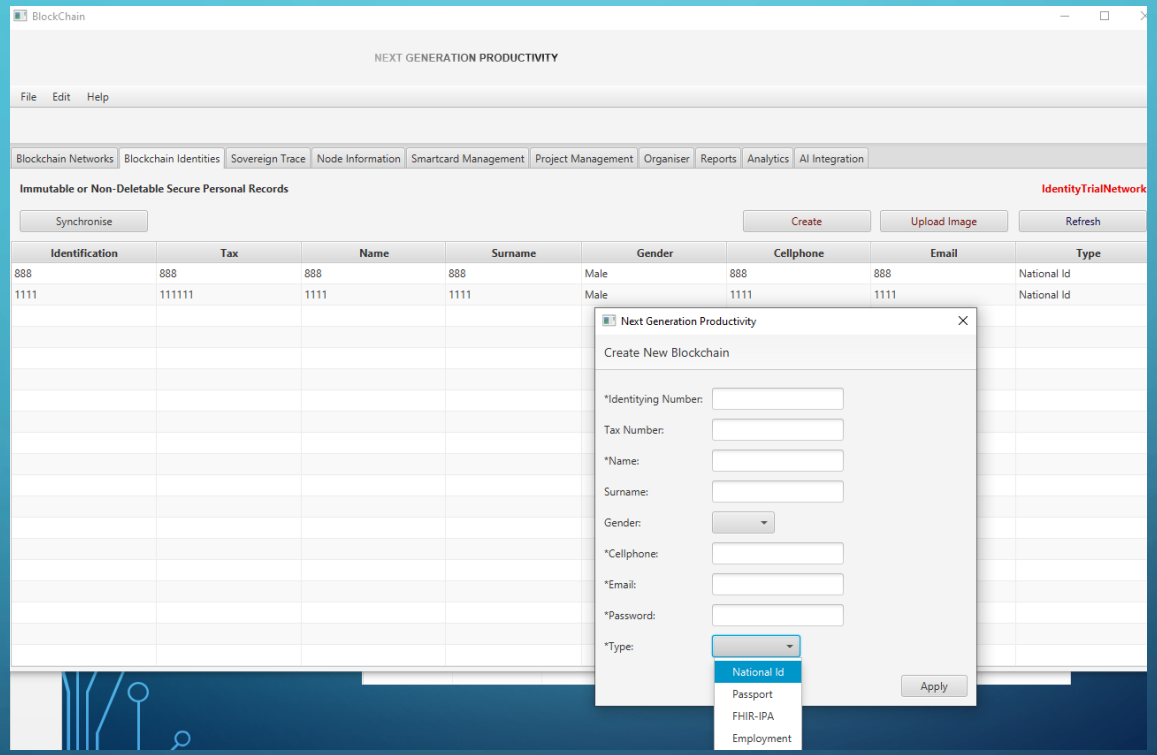

LOCAL, DECENTRALISED STORAGE

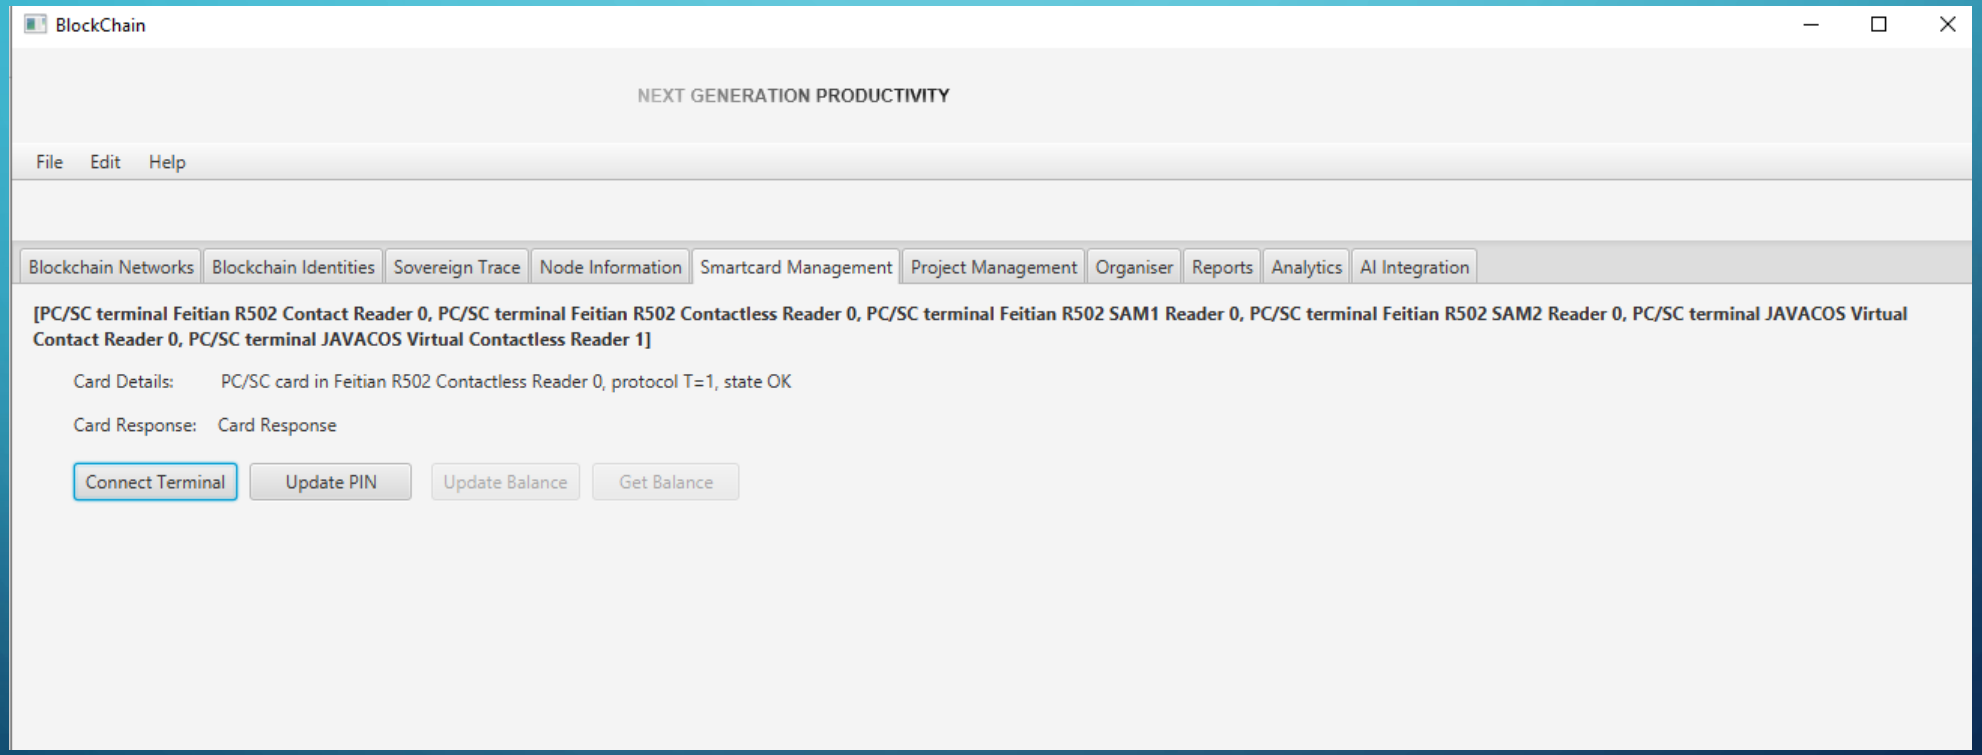

… CONTINUED

- Data is stored locally on any Windows or Linux PC
- Other PC's (Nodes) can join a highly secure data sharing network
- Data is synchronised at set intervals to each Node
- Identifying and Asset Tracing data is stored in Blockchain
- Identifying data linked to national id, health record system etc.
- Add notes to later capture into *actual* national id, health record system etc.
- Check customers in and out; recording them in the immutable blockchain ledger, then synchronise the data later
- Secure smartcard login and authorisations
- Link to Machuzu ERP, SysPro, SAP, Sage, Microsoft Dynamics and other ERP or custom software
- Connect to Industrial equipment and collect asset production data to store in immutable blockchain ledger
